Present Land Use/Zoning/General Plan Use

The upland portion of the project would be located within a State Park. The water ward portion of the project would be on the ocean floor.

Project Description

The Project being proposed by AT&T Corporation (AT&T) is to install and maintain one fiber optic cable with self contained power from AT&T's existing landing facility in the Montaña de Oro Sandspit Beach parking lot near Los Osos, in San Luis Obispo to Hawaii, Guam and Southeast Asia. This would increase network resiliency and ameliorate the effects of a natural disaster potentially breaking numerous cables in a discrete geographic region.

Note: Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. from a Notice of Preparation or previous draft document) please fill it in.

Reviewing Agencies Checklist

KEY

S = Document sent by lead agency

X = Document sent by SCH

/ = Suggested Distribution

/ Resources Agency
/ Boating & Waterways
/ Coastal Commission
— Coastal Conservancy
— Colorado River Board
